

NOMARX

JVI NOMARX is a flexible, reusable, white rubber pad that prevents spalling in storage and shipping applications without leaving a mark!

Produced using a white nitrile rubber compound, JVI NOMARX is the shield you need to prevent damage and discoloration to sensitive surfaces.

NON-MARKING NON-STRUCTURAL PADS

NOMARX

In addition to being an ideal solution for preventing spalling in precast shipping and storage applications, JVI NOMARX is resistant to oils, solvents, and fuels.

It has the added benefit of being FDA approved and meets "3A Sanitary Standards for Multiple-Use Rubber and Rubber-Like Materials used as product contact surfaces in dairy equipment" Number 18-01, Class III and IV.

ADVANTAGES

- *Eliminates spalling while storing and shipping precast panels*
- *Non-Marking*
- *FDA approved ingredients per 21 CFR 177.2600*
- *ASTM D 2000-2BF-615-E034*

Material Properties	
Maximum Sheet Size	36" x 480"
Stock Thicknesses	1/4"
Maximum Sheet Width	36"
Elastomer Type	Nitrile
Durometer Hardness	60 +/-5 Shore A

Physical Properties	
Tensile (Elastomer)	1700 PSI (Min.)
Ultimate Elongation (Elastomer)	400%
Temperature Range	-20°F to + 200°F
